

FINANCE

The Finance major is designed for students interested in becoming a financial or investment manager, an investment banker, or similar positions. It includes study of the key elements and tools in financial management and also aids in the development of analytical and communication skills. The Finance major earns a bachelor of science in business administration degree (BSBA) with a major in finance.

Finance majors take courses such as:

- Statistics for Decision Making
- Management of Financial Institutions
- Theory of Corporate Finance
- Investment Management
- International Finance
- Business Spreadsheet Applications
