

## STANISLAUS & RICHTER WIN WHEAT RIDGE HEALTH STUDIES GRANTS

Dr. Shirvel Stanislaus and Dr. Andrew Richter have each been awarded a Wheat Ridge Foundation grant for the Healing Arts and Sciences.

Dr. Stanislaus' project involves studying radon in Northwest Indiana homes. Radon is a prominent cause of lung cancer.

Dr. Richter's project involves studying nanoparticles and nano-thin films for drug delivery and diagnostic applications. His work is in collaboration with researchers at the University of Memphis.

Please see the official [VU news release](#) for more information about these exciting projects.

Congratulations to Drs. Stanislaus and Richter!
